

**Bubulcus &
Bolotas**

Round trip Montargil lake (125 km)

Leaving the camping site go left on the N251 direction Pavia. In Pavia continue along the N251 direction Mora. Just before Mora, at the roundabout, take the N2 to Montargil / Ponte de Sor. After 2,5 km the road to the “Fluviario” is indicated to the right. In the Fluviario you’ll find big fresh water aquaria and other interesting things related to the river. There is also a river beach with playground for children. Don’t forget to bring your swimming gear.

Back on the N2 continue in northbound direction to Montargil. Shortly before crossing the dam of the lake you can take a small gravel road (directly behind the tanking station) to the right which leads to a recreation area on the banks of the lake. After relaxing, head back for Mora.

Bubulcus & Bolotas

Mora is a small town, worth a short stay. From Mora take the N2 in the direction Montemor-o-novo. The road is windy as it follows small mountains and Mediterranean forests. In Ciborro the road gets so narrow, that the traffic is regulated with traffic lights as a one way street. From here, there is a road to Lavre (14 km) which has a Zoo. If you continue in direction Montemor after 5 km you can take a road to the left indicated Sabugueiro. Then go to Gafanhoeiro and after that to Santana do Campo. These are all small sleepy villages in the middle of nowhere, typical for the interior parts of Alentejo. From Santana you'll continue to the N370 from Arraiolos to Pavia. Turn left direction Pavia. Cross the bridge over the river Divor and turn right direction A. da Serra. From here follow the road to S. Gregório (white church in the middle of the country). Turn left to Bardeiras. Go through Bardeiras until the main road Pavia – Vimieiro. Turn right. After 1.6 km you'll find the access road to Bubulcus & Bolotas camping on your right.
